A bag system
that solves
the problems
in your waste
cabinet

- Efficient
- Hygienic
- Environmentally friendly

Waste management for waste sorting walls and waste cabinets

EFFICIENT

- Loaded with a bag cassette up to 110 m in length.
- New bag always in place.
- Bag always securely sealed.
- Quick bag replacement – saves time.
- Variable bag size for flexible replacement intervals.

HYGIENIC

- Bags are replaced and sealed from the outside – no contact with the waste.
- Spillages around the opening are collected by the next bag.
- Simple to clean.

ENVIRONMENTALLY FRIENDLY

Longopac Flex is loaded with a Longopac cassette that is available in a variety of strengths and colors.

- Longopac bag material is made from 3-ply polyethylene, which affords low raw material consumption and high strength.
- Longopac is also available in compost-certified biodegradable plastic.
- Variable bag size always ensures bags are 100 % full.
- Generates less than a third of the carbon dioxide produced by traditional bags.

Flexible mounting solution

With Longopac Flex mounted behind your waste sorting walls and in waste cabinets, you can eliminate the problem of the opening becoming blocked and waste overflowing. The Longopac Flex cassette holder is also popular with personnel, as the bags can be replaced faster, more ergonomically and more hygienically than traditional bin liners. The Longopac system also has much less of an environmental impact.

Longopac Flex is width adjustable, which means that it can be installed without difficulty in most waste cabinets. Longopac Flex is available in four sizes: Maxi, Midi, Mini Square and Mini Slim. All the sizes are shown below. The adjustable width of the cassette holder is shown on the left, and on the right its length. Please contact us for complete blueprints.

MINI SLIM

Opening 164x284 mm
Item no. 34360

MINI SQUARE

Opening 231x231 mm
Item no. 34370

MIDI

Opening 278x318 mm
Item no. 34380

MAXI

Opening 356x356 mm
Item no. 34390
