## LONGOPAC PHARMA

The Longopac bag system is ideal for transferring powder between vessels and drums. By using the Longopac system, you will eliminate cross-contamination, improve the working environment and protect personnel and product. You will find that our system is easily integrated into isolators or safety cabinets and will provide a safer and more efficient handling of products or waste.

## PAXXO AB

Paxxo is a Swedish based packaging company founded in 1980. Our business concept is to manufacture the unique, endless bag system Longopac which, thanks to innovative, smarter waste management and packaging solutions, creates a better working environment for all industries.

All of our production takes place in Malmö, Sweden and our management system is certified according to ISO 9001 & 14001. We work hard to constantly improve our product and to make our company greener and by such lower the environmental impact of our products on the market.
