

# Longopac® Flex

*– no time to waste*

The bag system  
that solves the  
problems in your  
waste cabinet

- Hygienic
- Efficient
- Less CO<sub>2</sub>

# Smarter waste management for waste sorting walls & cabinets

## HYGIENIC

- No contact with waste at any time.
- Spillage around the opening follows into the next bag.
- Easy cleaning.

## EFFICIENT

- Always new bag in place.
- Faster bag changes - under 30 sec.
- Less cleaning.
- Flexible changes. You decide when the bag is full, no matter the volume of waste.

## ECO-FRIENDLY

- 50% recycled material in all cassettes (except Food & Pharma).
- 80% lower CO<sub>2</sub> emissions compared to traditional waste bags.
- 100% filling degree.
- Longopac is manufactured in 3-layer polyethylene, which provides low raw material consumption in combination with high strength.
- Lower weight and compact packaging mean less storage and transport costs.

# The flexible mounting solution

Longopac Flex is built into your new or existing sorting stations and waste cabinets.

Our cassette holder Longopac Flex is appreciated by the staff as bag changes are carried out faster, are more ergonomic and result in better hygiene than when changing traditional rubbish bags. In addition, the Longopac system has a significantly smaller impact on the environment.

With the Longopac Flex holder, you can adjust the width of the rails, which means that it can be easily mounted in most existing cabinets and waste stations without you having to invest in a new cabinet.

Longopac Flex is mounted on sliding rails and can be easily pulled out to facilitate changing the bag or when a new cassette is to be inserted.
