

Longopac® Flex TROLLEY – simply smarter

A hygienic, efficient and flexible solution for handling waste during cleaning

- Hygienic
- Efficient
- Eco-friendly

Longopac Flex Trolley streamlines the waste management processes within the cleaning industry

Our cassette holder **Longopac Flex Trolley** is a flexible and adaptable holder that can be mounted on most cleaning trolleys. The cassette holder is loaded with our bag system Longopac, which has already made waste management more efficient in many industries.

With the Longopac system, the bags are adapted to the amount of waste, and not the other way around. Longopac's design also means that a new bag is always in place. The system also contributes to improving the working environment through more hygienic handling, as waste han-

dling takes place without contact with the waste. This is both hygienic and economical, but also climate-smart as the bags always have a 100% filling rate. The holders are available in Mini and Midi sizes.

The **Midi Gritter** is a special variant for wire carts and is specially designed to replace the traditional garbage bag cart on linen carts within the Horeca environment. The cassette holder is hung on the side of the cart. With the associated rubber band, you can easily hold the cassette in place and prevent the bag from sliding down to the floor.

HYGIENIC

- No contact with waste at any time.
- Spillage around the opening follows into the next bag.
- Easy cleaning.

EFFICIENT

- Always new bag in place.
- Faster bag changes - under 30 sec.
- Less cleaning.
- Flexible changes. You decide when the bag is full, no matter the volume of waste.

ECO-FRIENDLY

- 50% recycled material in all cassettes (except Food & Pharma).
- 80% lower CO₂ emissions compared to traditional waste bags.
- 100% filling degree.
- Longopac is manufactured in 3-layer polyethylene, which provides low raw material consumption in combination with high strength.
- Lower weight and compact packaging mean less storage and transport costs.

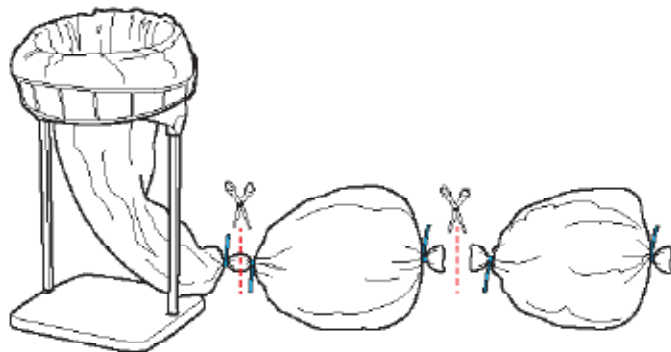

MINI (Art. nr. 34300)

Height..... 159mm
Width..... 374mm
Depth 264mm
Opening..... 284x164mm

MIDI (Art. nr. 34350 / 34355)

Height..... 159mm
Width..... 406mm
Depth 403mm
Opening..... 302x289mm

Standard Colours

	0		5
	1		6
	2		7
	4		8PU

INSTALLATION

The **Mini** and **Midi** holder is designed to be attached to a 6 mm steel profile, commonly used by many cleaning manufacturers, and will fit many different types of cleaning trolleys.

Midi Gritter is a special variant for wire trolleys. It attaches to wire trolleys with a minimum mesh aperture of 50 mm with a wire diameter of 4–8 mm.

Intertek

The manufacturer Paxxo AB is certified according to ISO 9001 & 14001
