

Longopac® Bin

The practical and hygienic solution for efficient waste management in public areas

- Hygienic
- Efficient
- Eco-friendly

Longopac® Bin

HYGIENIC

- No contact with waste at any time.
- Spillage around the opening follows into the next bag.
- Easy cleaning.

EFFICIENT

- Always new bag in place.
- Faster bag changes - under 30 sec.
- Less cleaning.
- Flexible changes. You decide when the bag is full, no matter the volume of waste.

ECO-FRIENDLY

- 50% recycled material in all cassettes (except Food & Pharma).
- 80% lower CO₂ emissions compared to traditional waste bags.
- 100% filling degree.
- Longopac is manufactured in 3-layer polyethylene, which provides low raw material consumption in combination with high strength.
- Lower weight and compact packaging mean less storage and transport costs.

Calculate your environmental savings with Paxxo's CO₂-calculator on the website!

THIS IS HOW IT WORKS

Step 1:

The bag cassette is sealed at one end with a cable tie. When the bag starts to fill or you simply want to change it, you pull the bag down to feed new material out of the cassette.

Step 2:

To seal the bag, use a cable tie at the top of the waste.

Step 3:

Attach another cable tie approx. 5cm above the first cable tie and cut the bag material between them.

The whole process takes less than

30
seconds!

Our Longopac system takes your waste management to a new level in a clean, simple and eco-friendly way.

Within our Bin series you will find several flexible and stylish solutions for a more efficient waste management system. Our Bins are designed for use in both offices and public areas, and all are of course integrated with the Longopac system.

We have everything from the smaller bin for e.g. the lobby, waiting room or shops, a source sorting cabinet for the lunch/conference room, the cafe, school and many outdoor solutions.

It is when changing all fractions in a quick and easy manner that you see the big advantages with the Longopac system, compared to traditional waste bags - and never using more plastic than necessary.

With Longopac in your source sorting stations, the cupboard is always completely emptied without you having to throw away half-full bags.

Bin Bullet

The **Bin Bullet** is a practical bin that is available in a black or white cover that can be easily lifted off to change the Longopac bag. With its stylish design and simplicity, this has become a best-seller that fits in all indoor environments.

It is also possible to order the silver-coloured details in any colour to e.g. colour-code the fractions to simplify source sorting or accommodate your company colours.

Bin Bullet is loaded with Longopac Mini.

Bin Welcome is a mobile piece of furniture for disinfecting e.g. hands or surfaces in public areas.

The cabinet comes in a flat pack and is easy to assemble. A container for disinfectant wet wipes is included.

Bin Welcome is loaded with Longopac Mini.

Bin Welcome

Indoor Solutions

Bin Multi 1

Bin Multi 2

Bin Multi 3

Bin Multi 4

Bin Multi Cup

Bin Lavello

Bin Box

The **Bin Multi** is a modular system for source sorting of your waste where you can quickly combine the system to suit your needs and wishes with 1-4 fractions. Bin Multi fits into most spaces where efficient source sorting is required, such as e.g. in the corridor, kitchenette or a conference room.

The furniture can be placed in all dry environments and fits together with our special solutions Bin Multi Cup, Bin Box and Bin Lavello.

Decals for the bins come separately and are easily attached according to how you choose to sort.

Bin Multi is manufactured in Sweden and made of melamine and high-pressure laminate.

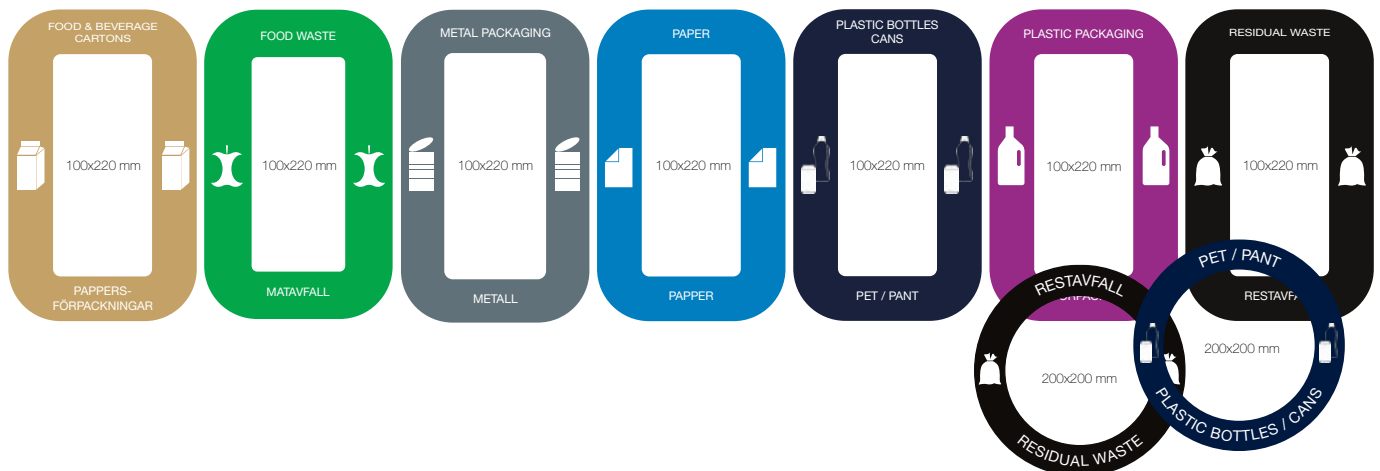

The standard colours of the modular furniture are white or grey, but they can be specially ordered in other colours.

The entire Bin Multi system is loaded with Longopac Mini.

Product name	Item No. / Colour	Measures	Weight	Cassette

Decals for Bin Multi (Nordic)

Urban solutions

Our outdoor solutions, which we call Urban solutions, meet the demand for flexible and hygienic waste management for all types of outdoor use and public environments. The products are of a very high quality, which enables use for a long time and in exposed environments.

Bin Avenue

Bin Inox

Bin Sensi

Bin Avenue is the stable waste bin that is designed for public environments and withstands all weather conditions.

With a stylish design, Bin Avenue fits into most environments and comes in different versions. As standard, the cabinet is dark grey and the doors are black, but these can be obtained in any colour when ordering at least 5 pieces.

Bin Avenue is loaded with Longopac Midi.

Bin Inox is a stylish and elegant outdoor solution in stainless steel. With its easy handling and simple bag changes, Inox is a clear favourite. The modern design makes it easy to place and with a competitive price it becomes an obvious choice for your waste management.

Bin Inox is loaded with Longopac Mini.

Bin Sensi is the newest addition to our Urban Solution range. This stylish waste bin has a built-in fill meter that tells you when it needs to be emptied.

Via the app on your phone or computer, you can follow information about e.g. the degree of filling and easily schedule when you need to empty it. The sensors support LoRaWAN (city network).

Bin Sensi is easy to fit into different areas and surfaces and comes in the standard version of three fractions.

For larger orders, they can be obtained in fractions from 1-4.

Bin Sensi is loaded with Longopac Mini.

Commerz
(only for indoor use)

Commerz is a modular waste station that with its elegant design easily can be placed in different types of indoor environments such as offices or other public areas such as train stations, airports, schools, etc.

Although Commerz can be obtained in several fractions for better sorting, it does not require much space and can effortlessly be integrated even in narrow passages and office corridors.

As a standard the Commerz comes in either white or black where both versions are combined with brushed steel on the short sides and lockable doors.

The front of the cabinet can be customized as desired and according to your company design.

Commerz is loaded with Longopac Mini.
